

KEMNAY GOLF CLUB

Kemnay Golf Course - Health & Safety Information

General Safety points – all Golfers must:

- show the utmost regard for the safety of other golfers and members of the public adjacent to and on the golf course. It is every player's responsibility to ascertain that it is safe to play.
- be aware of the signals for suspension of play e.g. course closure, the risks to personal safety e.g. lightning and read carefully any notices at the first tee detailing any green-keeping work which may be hazardous. Course Closure Notices are posted at the Half Way House by the 10th tee and in the Clubhouse Locker Rooms.
- be aware of the procedures for contacting help in the event of emergencies on the course e.g. collapse/acute illness. A defibrillator is located in the Clubhouse and a Notice posted there and at the Half Way House.
- pay particular attention to ground conditions and ensure that footwear appropriate to the conditions is worn. Kemnay Golf Club is built on natural parkland/woodland terrain with many areas of undulating and uneven ground, with slopes in places. Particular care should be exercised when ascending or descending slopes when conditions may be slippery.
- not intentionally drive the ball to adjacent fairways.
- use all footpaths and bridges. Balls in ditches should be retrieved with the scoops provided.

Specific Safety Guidance for certain holes (these are worded for right handed golfers).

- 1st hole: A public road on the left and a crossing to and from the 17th medal tee.
- 2nd hole: No deliberate play from the 2nd tee down the 16th fairway. Adjacent tree lined avenue blind from the tee and a road crossing 70 yards short of the green which is unsighted.
- 5th hole: Be aware of a risk to players on the 14th green from a sliced (right) drive
- 7th hole: Sliced drive risk to players on the 15th and a hooked second shot risk to players on the 8th tee which is unsighted.
- 9th hole: Risk to players on the 13th tee from a hooked (left) drive. Beware of the steep slopes on the fairway during adverse weather.
- 10th hole: Be aware of golfers on the 11th tee. Significant risk to players on the 11th tee from a pulled or hooked tee shot. A warning sign is displayed on the tee.
- 11th hole: Be aware of golfers on the 10th tee. Significant risk to players on the 10th tee and at the halfway house from a pulled or hooked tee shot. A warning sign is displayed on the tee.
- 15th hole: Second shots from the fairway are blind to the green and the 3rd tee to the right of the green.
- 17th hole: Players using the medal tee should exercise due caution crossing the first fairway and should use the steps provided to check the fairway is clear before teeing off.
- 18th hole: Pulled or hooked tee shots can endanger people and property at the clubhouse. Protective screens have been installed but a warning shout of "FORE LEFT" should always be given.
